DETAILED ACTION

This office action is in response to the filing of the application (1/6/04 being the file date) and the preliminary amendment filed 5/10/04.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13 and 15-22, drawn to a NAND flash memory cell array, classified in class 257, subclass 315+.
 - II. Claims 14 and 23, drawn to a process of fabricating a NAND flash memory cell array, classified in class 438, subclass 201+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process than the one claimed in either claim 13 or claim 23, for instance by forming the second silicon layer selectively on the first dielectric film instead

Art Unit: 2826

of forming the second silicon layer on the first dielectric film following by a process step of etching (unwanted) portions of said second silicon layer.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
